

GT1600 Series

Flowmeter Model GT1600

Variable Area

Industrial Glass Tube Variable Area Flowmeters

Features

- Configurable to retro-fit GT10xx, GT130x and Full-View
- 360 degrees rotatable viewing angle
- High quality materials for safety, in- and outdoor durability
- 316 stainless steel frame
- Polycarbonate safety shield
- 316/316L dual certified stainless steel process fittings
- Alarms for high- and low flow (optional for all flow ranges, either at time of order, or as add-on in the field)
- Flanged or threaded connections, available horizontal and vertical
- Panel- and wall mount options
- Easy in-situ maintenance: Clean or replace tube and float without removal from the process piping
- Adjust the scale to compensate for process variation
- Optional integral needle valve

Product Specifications

Flow Accuracy	Standard: $\pm 10\%$, $\pm 5\%$, $\pm 2\%$ Full Scale, Class 2.5 acc VDI/VDE
	Optional: $\pm 1\%$ Full Scale, Class 1.6 acc VDI/VDE
Repeatability	$\leq 0.5\%$ Full Scale
Capacities and Pressure Drops	See Capacities
Scales	Transparant scale. Adjustable
	Nominal Lengths: 75mm, 127mm and 250mm
	Choice of direct reading units, millimeter or percentage of maximum flow with factor tag.
Ambient Temperature Limits	-4°F to 125°F -20°C to 52°C
Operating Fluid Temperature Limits	33 to 250°F 1°C to 121°C
Mounting options	In-line
	Panel-mount (see Dimensions)
	Wall-mount (see Dimensions)

Note (1) - Air flow rates in standard units are at 70°F & 14.7 psia

Note (2) - Air flow rates in normal units are at 1.013 bar & 20°C

* These codes require a back pressure of 30 psig / 2bar

Brooks Service and Support

Brooks is committed to assuring all of our customers receive the ideal flow solution for their application, along with outstanding service and support to back it up. We operate first class repair facilities located around the world to provide rapid response and support. Each location utilizes primary standard calibration equipment to ensure accuracy and reliability for repairs and recalibration and is certified by our local Weights and Measures Authorities and traceable to the relevant International Standards. Visit www.BrooksInstrument.com to locate the service location nearest to you.

START-UP SERVICE AND IN-SITU CALIBRATION

Brooks Instrument can provide start-up service prior to operation when required. For some process applications, where ISO-9001 Quality Certification is important, it is mandatory to verify and/or (re)calibrate the products periodically. In many cases this service can be provided under in-situ conditions, and the results will be traceable to the relevant international quality standards.

SEMINARS AND TRAINING

Brooks Instrument can provide seminars and dedicated training to engineers, end users, and maintenance persons. Please contact your nearest sales representative for more details.

Due to Brooks Instrument's commitment to continuous improvement of our products, all specifications are subject to change without notice.
